Project: Covid-19 Protection

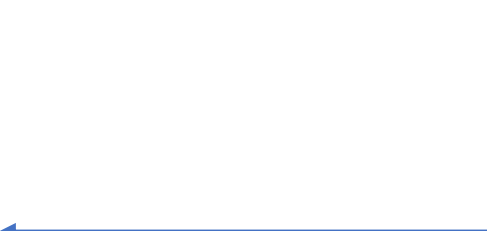

Project: COVID -19, Protection

- AS we know that corona virus infection became a over spread epidemic. The coverage of testing and treatment presently centred in hospitals . We may operate the drive to survey, testing :
 - Type one common diseases cold fever, allergic fever, headache, vomiting any type of discomfort ; commonly occur in this season
 - COVID-19 virus testing follow-up action after taking samples and pre testing actions
 - Immunity is the significant factor at all.
 - Sensitivity about social distancing through
 - Short movies
 - Documentaries
 - Precautions & preparation against discomforts

COVID-19 Protection

We focus here “C” Areas through **Testing VAN**

COVID-19 Protection

Key Notes- Parameters taken into consideration for Survey

- Population- Family wise
- Any discomfort Reported- Data will be collected from category wise touch points i.e. (A,B & C)
- Present obstacles
- Relief level (Available)
- Relief level- Required
- **'B'** is considering -factor of attention

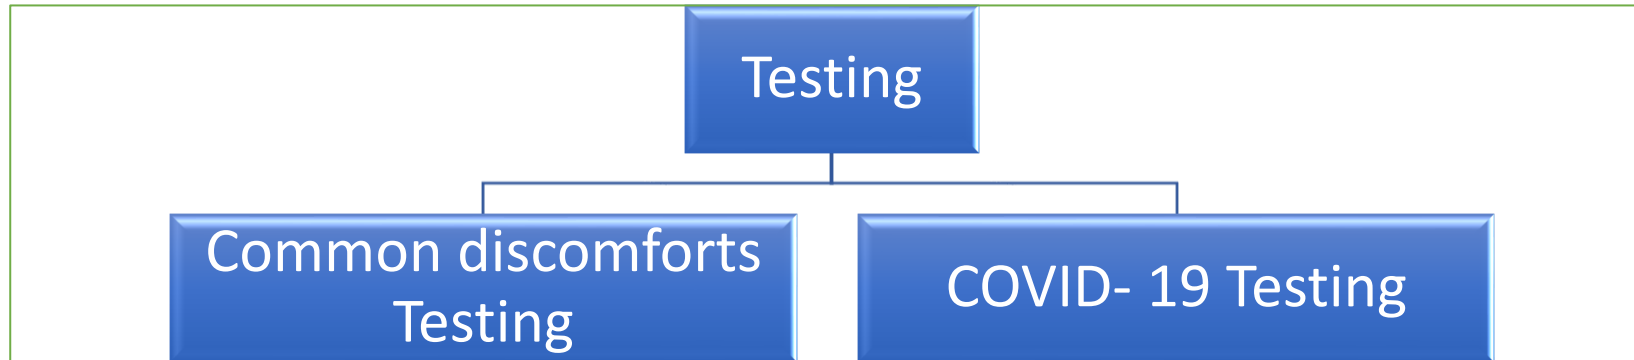

We are ready for Rush/ Spot testing the diseases (Reason of discomfort)

COVID -19 protection

Immunity Development

- General Reporting (Bad effect factors- Environmental)
- Population study
- Patient wise study- TB, Asthma, Diabetes, Heart Diseases.
- Common Debility (Muscular weakness)
- Under weight study- Age weight ratio wise
- Distribution of immunity boosters- Vitamins & Other supplements
- Sanitation- distribution of Masks and Sanitisers, sanitary Pads to ladies etc.

COVID -19 protection

1. Lab VAN and common discomfort testing

There will be a Lab- VAN in which all reagents and chemicals with the facility of conducting common tests handled by lab technicians. Tests will be Advised by competent doctor in another vehicle , fully sanitised and under maximising the social distancing.

Test reports will also be make available to the patients

2. COVID-19 Testing

COVID-19 corona virus infection test samples will be collected and Tested in the COVID- Lab , All reports will be uploaded to the sides

COVID -19 protection- Complements

All the services will be given in coordination with Distt. Officers of state – Govt. of Uttar Pradesh. Weekly reports will also prepared and posted /uploaded to various agencies of the state govt.

Weekly Programmes of services will be given in advance to the Distt. Coordinators for supervision at spot also.

All the programmes will bear a much cost that is expected from Govt. agencies.

Detailed estimates are available in our project report, attached here.

Thanks to all
